

Objective

To work in a team environment that fosters new ideas, encourages leadership, and allows me to apply my skills in web development and design to increase the quality of any website.

Technical Skills

- Code for the web using **XHTML**, **CSS**, **JavaScript**, **PHP**, and **ASP.NET**
- Design websites with graphic editors like **Photoshop** and **Fireworks**
- Animate and optimize movies for various mediums using **Flash**
- Utilize programs such as **Dreamweaver** to save production time
- Optimize for search engines with **Content**, **Titles**, and **Descriptions**

Experience

2006-Current - American Society of Plastic Surgeons - New Media Producer

- Create new pages for our website
- Work with our Content Management System to update pages regularly
- Code in JavaScript to add dynamic functionality
- Help transfer our website from Coldfusion to ASP.NET technology
